Year 2: Animals Including Humans

Vocabulary

fish	amphibians	reptiles	herbivores	carnivores	adults	
birds	mammals	humans	insects	omnivores	offspring	

The Big Picture

What I should know already...

Year 1

- I can name and label parts of a human body (including senses)
- I can match name labels to animals
- I can discuss the vocabulary carnivore, omnivore and herbivore

What I will learn...

- I can name and match a variety of animals to labels.
- I can create a guide to recognising different types of animals.
- I can label animals as carnivore, herbivore and omnivore.
- I can show how carnivores, herbivores and omnivores are similar and different.
- I can describe and compare the structure of a variety of animals.
- I can give evidence to prove that a reptile could not be confused with a mammal.
- I can match the offspring to the adult.
- I can describe the basic needs of animals, including humans, for survival.

Links to future topics...

Year 3

- I can sort food into groups and name and describe the seven types of nutrients that humans and animals need.
- I can label the main bones and joints in the human skeleton and some animals and describe their role.

'Know That' Statements

By the end of each lesson, I will know and retrieve that...

Lesson 1

Lesson 2

Lesson 3

Herbivore

Animals that eat plants.

Carnivore

Animals that eat meat.

Omnivore

Animals that eat both plants and meat.

Lesson 4

Carnivores

Eat only animals

Omnivores

Eat animals and plants

Herbivores

Eat plants

Lesson 5

Lesson 6

Lesson 7

Lesson 8
