'Know That' Statements

By the end of half term, I will know and retrieve...

How plants grow

float sink

The Big Picture

What I should know already...

I can recite the days of the week and I understand 'tomorrow'.
I show interest in different jobs.
I know what a map is used for and can follow a simple route. I know I live in Coventry, England.
I am beginning to understand there are differences in what people believe and some festivals.
I explore the natural environment and I am beginning to identify some similarities/differences within it.
I identify that things in nature change e.g. growing a seed.
I explore and describe forces.

What I will learn...

- to name the seasons of the year and what changes occur.
- How plants grow.
- I understand the concept of 'yesterday'.
- I know about and respect differences in people in my community and that they celebrate special days.
- That objects float and sink

Links to future topics...

Year R

- I know the order of the seasons and that they repeat.
- I know 'then' and 'now'.
- I know what plants and animals need to survive and that organic things decay.
- I can talk about what others celebrate and understand that some special days repeat annually.
-

Seasons

yesterday

YESTERDAY,
TODAY AND TOMORROW
